CONTEMPORARY
GAS FIREPLACES

why choose Regency?

Fire Transformed to Art

My vision was to elevate the role of a fireplace beyond the heating function to a highly stylized art form for today's trend toward modern homes. I focused on clean lines crafted from unique materials and finishes. These elegant frames wrap artfully around a fire that dances evocatively from a fire bed blanketed in vibrant crystals or a seamless river of pebbles. Prepare to impress.

Regency Quality ... Beauty that Heats

For over 35 years Regency has carefully researched trends to develop fireplaces that fit your needs. A perfect combination of function and beauty; each Regency is a high efficiency heater with a beautiful view. Cut your heating bills by turning your furnace way down in most of your rooms and enjoy high efficiency, controllable heat in the living areas you spend time in. And, all Regency products operate during power outages.

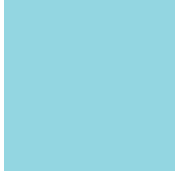

Lifetime Warranty

I am so confident in the quality workmanship, the finest materials and durable heavy-duty construction invested in each and every Regency, that I offer a Limited Lifetime Warranty. We know that you will be as proud of your Regency Contemporary Collection Fireplace as we are – I guarantee it.

Regency Horizon®

HZ965E Large Contemporary Gas Fireplace

HZ965E shown with safety screen, enamel reflective panels and black crystals (clean edge install).

Bold Flames, Big Style

Create a glowing centerpiece in your home with the Regency Horizon HZ965E gas fireplace. Styled for contemporary environments, this large fireplace features an inset design that allows finish materials to be installed to the edges for a clean design aesthetic. With one of the largest viewing areas in the Regency collection, the HZ965E offers an impressive view of the flames through heat radiating ceramic glass. A wide range of accessories and finish options make this fireplace an excellent choice for larger modern living spaces.

HZ965E shown with safety screen, black enamel reflective panels and copper crystals (clean edge install).

Regency Remote and Thermostat Comfort Control

Create optimal comfort with ease and convenience at the touch of a button with a Regency Comfort Control System. Our user friendly programmable controls can be set, adjusted and programmed for your fireplace to come on at the temperature you want when you want it. Regency control systems are available with a variety of features to suit your household home heating needs.

Accent light (On/Off)***		✓	✓	-

* Smart Thermostat - Rather than a thermostat that simply turns your fireplace on and off, the Smart Control function allows you to set your desired room temperature and as the room reaches your personal setting, the flame intensity and heat will gradually decrease – keeping the ambiance of your Regency fire on with less heat output and the option to turn off at any time.

** For models that have a blower.

*** For models that have an optional accent light.

Maximizing Comfort and Efficiency

Regency Fireplaces deliver controllable heat solutions combining the latest in radiant/convection heat technology and innovative features.

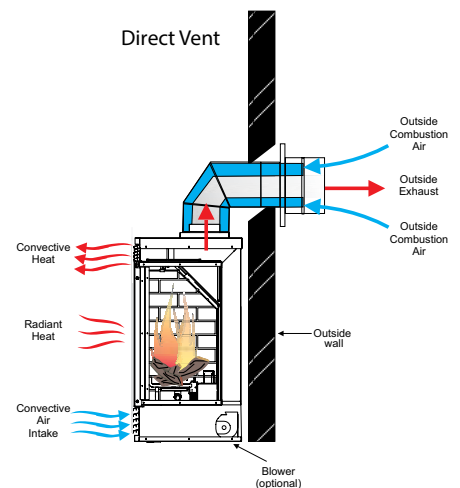

- ☑ Adjustable flame/heat control
- ☑ Heat radiating ceramic glass for maximum radiant heat performance
- ☑ **SureFire Electronic Ignition** switch with battery backup features fuel saving intermittent pilot ignition, conserving energy when not in use.
- ☑ **Power's Out, Heat's On.** Never worry about being cold in a power outage again! All Regency gas fireplaces operate without electricity. Enjoy peace of mind all winter long.

Direct Vent Technology

You can enjoy the convenience of a gas fireplace anywhere in your home with a Regency Direct Vent Fireplace. Regency Direct Vent Fireplaces maintain indoor air quality by drawing fresh combustion air from outside through our specialized venting system into a sealed firebox and sending the used air back outdoors.

Design Versatility

Direct Vent technology allows you to add a fireplace to rooms even if there is no existing chimney. Simply vent your fireplace through an outside wall and finish it with the Regency Patented **AstroCap® Flex Venting System**.

AstroCap (painted to match home)
